

Philip M. Hurvitz

Data Scientist

Curriculum Vitae
April 2025

GeoScience Research Labs, LLC
philhurvitz.com
+1 206-335-8906
phil@philhurvitz.com

Employment

2023-present	Senior Data Scientist Olympia, WA	Washington State (Office of Financial Management)
2019-2023	Research Scientist Seattle, WA	University of Washington (Center for Studies in Demography & Ecology)
2018-2019	Research Associate Professor Seattle, WA	University of Washington (Department of Urban Design and Planning)
2011-2018	Research Assistant Professor Seattle, WA	University of Washington (Department of Urban Design and Planning)
2010-2011	Research Associate Seattle, WA	University of Washington (Department of Urban Design and Planning)
2004-2010	Research Assistant Seattle, WA	University of Washington (Department of Urban Design and Planning)
1997-2004	Senior Computer Specialist Seattle, WA	University of Washington (College of Forest Resources)

Education

2010	PhD Seattle, WA	University of Washington
1994	MFR (Master of Forest Resources) Seattle, WA	Seattle University
1983	BA Seattle, WA	Seattle University

Peer-reviewed publications

1. Duncan, G. E., **Hurvitz, P. M.**, Williams, B. D., Avery, A. R., Pilgrim, M. J. D., Tsang, S., Amram, O., Mooney, S. J., & Rundle, A. G. (2025). Association between neighborhood walkability and physical activity in a community-based twin sample. *American Journal of Epidemiology*. <https://doi.org/10.1093/AJE/KWAE170>
2. Acolin, A., Crowder, K., Decter-Frain, A., Hajat, A., Hall, M., Homandberg, L., **Hurvitz, P. M.**, & Woyczynski, L. (2024). Gentrification Yields Racial And Ethnic Disparities In Exposure To Contextual Determinants Of Health. *Health Affairs (Project Hope)*, 43(2), 172–180. <https://doi.org/10.1377/hlthaff.2023.01034>
3. Lozano, P. M., Bobb, J. F., Mooney, S. J., **Hurvitz, P. M.**, Anau, J., Theis, K. M., Cook, A., Vernez Moudon, A., & Arterburn, D. (2024). Residential density is associated with BMI trajectories in children and adolescents: Findings from the M2H Study. *AJPM Focus*, 100225. <https://doi.org/10.1016/j.focus.2024.100225>

35. Oliver MN, Berke EM, Bazemore A, Zhang X, Phillips R, **Hurvitz PM**, "Health and Geography: A Workshop on How to Use Geographic Information Systems in Primary Care Research," given at North American Primary Care Research Group 35th Annual Meeting, Vancouver, Canada, October 20, 2007.

Grant Funded Research

National Cancer Institute (NCI)

Structural & Programmatic Effects of Bus Rapid Transit on Physical Activity

- Grant R01 CA178343, 2016-2019
- PI: Brian Saelens, PhD
- Role: Co-Investigator
- Informatics lead on a longitudinal treatment/control study investigating the effect of a new bus rapid transit system on physical activity changes

National Center for Research Resources

An Exploratory Center for Obesity Research

- Grant P20 RR020774, 2004-2007
- PI: Adam Drewnowski, PhD
- Role: Research Associate
- Wrote and co-led pilot study for real-time sensing of activity and environment using a novel multi-sensing device

National Institute on Aging (NIA)

Communities Designed to Support Cardiovascular Health for Older Adults

- Grant R01 AG049970, 2015-2019
- PI: Gina Lovasi, PhD
- Role: Investigator
- Designed and implemented spatial databases for a longitudinal study on built environment and cardiovascular disease.

TWINStudy of Environment, Lifestyle Behaviors, and Health

- Grant R01 AG042176, 2011-2015
- PI: Glen Duncan, PhD
- Role: Investigator
- Development and analysis of GPS, accelerometry, and Smartphone-based system for measurement of location, physical activity, food and exercise behavior, and built environment

National Institute of Child Health & Human Development (NICHD)

Demography Center

- Grant 5P2 CHD042828-19, 2002-2022
- PI: Sara R. Curran, PhD
- Role: Staff Scientist
- Research scientist to support Center for Studies in Demography & Ecology. Director of secure data enclave (UW Data Collaborative)

Childhood Obesity Treatment: A Maintenance Approach

- Grant R01 HD036904, 2011-2012
- PI: Denise Wilfley, PhD
- Role: Consultant
- Designed a GIS measurement framework for quantifying built environment in residential neighborhoods for a pediatric weight loss intervention study

Power Training Combined with Interval Treadmill Training to Improve Walking Activity in Cerebral Palsy

- Grant R01 HD091089, 2018-2023
- PI: Noelle Moreau, PhD, PT
- Role: Investigator
- Designed and implemented spatial databases including GPS and StepWatch data for a longitudinal study on physical therapy for children with cerebral palsy.

National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK)

Food environment, diet quality and disparities in obesity

- Grant R01 DK076608, 2007-2020
- PI: Adam Drewnowski, PhD
- Role: Investigator

Developed methodologies for measurement of food shopping distances, GPS and travel-diary based assessment of travel and food-related behavior

Moving to health: how changing built environments impact weight and glycemic control

- Grant R01 DK114196, 2017-2022
- PI: David Arterburn, MD
- Role: Investigator

Developed methodologies for measurement of built environment for very large Kaiser Permanente of Washington State patient cohort

National Heart, Lung, and Blood Institute (NHLBI)

The effect of light rail transit on physical activity: a natural experiment

- Grant R01 HL091881, 2008-2013
- PI: Brian Saelens, PhD
- Role: Investigator

Developed automated system for combining GPS, accelerometry, and self-reported travel diary into a single "LifeLog" tabular format for temporal analysis of transportation and physical activity behavior; developed error-checking database system for transcription of travel diary data

Rural town walkability: measuring the effect of the built environment

- Grant R01 HL103478, 2010-2013
- PI: Mark Doescher, MD, MSPH
- Role: Investigator

Led data collection and management of GPS, accelerometry, and self-reported travel diary data for a multi-site study on walking behavior in small towns

BALANCE: Bioengineering Approaches For Lifestyle Activity And Nutrition Continuous Engagement

- Grant R21 AG032232, 2007-2009
- PI: Glen Duncan, PhD
- Role: Research Associate

Developed a Smartphone-based map interface for displaying healthy food

National Institute of Nursing Research (NINR)

Efficacy and Mechanism of a Community Wellness Promotion Program for Middle Aged Adults Living with Long Term Physical Disability

- Grant R01 NR016942, 2018-2023
- PI: Ivan Molton, PhD
- Role: Co-Investigator

Lead for design and analysis of GPS and travel diary on an evidence-based health promotion intervention study for promoting community participation

Pacific Northwest Transportation Consortium (PacTrans)

Smartphone-based system for automated detection of walking

- 2013-2014
- PI: Philip M. Hurvitz, PhD
- Role: Principal Investigator

Development of a Smartphone based method for detecting walking using intervalometric photos, GPS, accelerometry, and other phone-based sensors

University of Washington Royalty Research Fund

Validation of new technologies and methodologies for measuring physical activity and location in real time-space

- Grant January 2007
- PI: Gaetano Borriello, PhD
- Role: Research Associate

Designed and administered study for real-time sensing of activity and environment using a novel multi-sensing device; led to dissertation research

US Department of Transportation

I-35 Freight Advanced Traveler Information System (FRATIS) Impacts Assessment

- Grant DTFH61-12-D-00042, 2016-2018
- PI: Mark Hallenbeck
- Role: Consultant/Analyst

Developed a PostgreSQL/PostGIS system for estimating highway travel time under differing traffic construction delay scenarios

Washington Department of Transportation (WSDOT)

Managing Pedestrian Safety I: Injury Severity: A Multivariate Analysis of the Severity of Injury Sustained by Pedestrians Involved in Collisions on State Routes in King County, Washington, and a Discussion of Effective Safety Intervention and Injury Prevention Policies

- Grant Agreement T2695 Task 84, 2007-2015
 - PI: Anne Moudon, Dr es Sc
 - Role: Research Associate
- Geocoded car & pedestrian collisions on King County state routes; obtained built environment measures in proximity to collisions using GIS data

Teaching**Green River Community College, Auburn, WA**

Instructor, Autumn 1994-Spring 1996

- Instructor for GIS 151 (Introduction to the UNIX Operating System; Surface Modeling with GRID & TIN)
- Developed a new introductory course for a new GIS program at GRCC Professional program of primarily focused on job retraining

University of Washington, Seattle, WA

Instructor, Winter, 2021

- Instructor for CSDE 502: Population Studies Proseminar

Instructor, Winter, 2020

- Instructor for CSDE 502: Population Studies Proseminar

Pre-Doctoral Associate Autumn 2009-Winter 2010

- Instructor for ESRM 250/CFR 590: Introduction to Geographic Information Systems in Forest Resources
- Average course evaluation: 4.1 out of 5

Teaching Assistant, Autumn 2006

- UrbDP 479: The Urban Form Assisted instructor Anne Moudon Provided support to students during instructional lab time and via e-mail.
- Developed new GIS Analysis module Graded assignments Maintained course web page

Pre-Doctoral Associate, Summer 2005

- Instructor for UrbDP 498/598: Introduction to Geographic Information Systems in Natural Resources.
- Taught a summer session of an introductory GIS course Undergraduate and graduate sections

Teaching Assistant Spring 2004

- UrbDP 422: Urban & Rural Geo-Spatial Analysis Assisted instructor Marina Alberti
- Provided support to students during instructional lab time and via e-mail Graded assignments Maintained course web page

Lecturer, Autumn 1998-Winter 2004

- Instructor for CFR 250/ESRM 250/CFR 590: Introduction to Geographic Information Systems in Forest Resources.
- Developed a new comprehensive introductory course for the technical use of GIS in natural resource management; course became required for all undergraduate majors Undergraduate and graduate sections Average course evaluation: 4.3 out of 5

Instructor, Winter 2001; Spring 2002

- Instructor for FM 590: Introduction to GIS Programming with Arc Macro Language (AML) Taught an introductory course in GIS programming for Arc/INFO

Instructor Autumn 1998-Winter 2000

- Instructor for GEOG CP 105: GIS Analysis: Introduction to Geographic Information Systems Analysis.
- Taught an introductory course in GIS analysis for UW Extension Certificate program in GIS aimed at working professionals seeking GIS skills

Instructor, Autumn 1997-Winter 2000

- Instructor for CFR 590: Understanding GIS: The ARC/INFO Method.
- Taught an course based on the standard Esri introductory workbook for Arc/INFO

Dartmouth College, Hanover, NH

Instructor, April 1-2, 2010

- ECS 155: The Geography of Health, "Introduction to Geographic Information Systems in Public Health"

Instructor, April 8-9, 2009

- ECS 155: The Geography of Health, "Introduction to Geographic Information Systems in Public Health"

Instructor, April 2-3, 2008

- ECS 155: The Geography of Health, "Introduction to Geographic Information Systems in Public Health,"

Instructor April 4-5, 2007

- ECS 155: The Geography of Health, "Introduction to Geographic Information Systems in Public Health"

Columbia University

Instructor June 25-29, 2018

- Introduction to Geographic Information Systems in Public Health, Epidemiology and Population Health Summer Institute

Instructor June 26-30, 2017

- Introduction to Geographic Information Systems in Public Health, Epidemiology and Population Health Summer Institute

Instructor June 8-12, 2016

- Introduction to Geographic Information Systems in Public Health, Epidemiology and Population Health Summer Institute

Teaching Assistant June 1-5, 2015

- Geographic Information Systems, Epidemiology and Population Health Summer Institute

Guest Lectures

1. **Hurvitz PM.** "Walking: a planning, transportation, and health perspective", UrbDP 532: Current Topics in Transportation Planning and Policy, University of Washington, Seattle, WA, February 2, 2021
2. **Hurvitz PM.** "Technique: Where the Rubber Meets the Road in Scientific Research", UrbDP 598: Urban Science, University of Washington, Seattle, WA, October 13, 2020
3. **Hurvitz PM.** "Walking: a planning, transportation, and health perspective", UrbDP 532: Current Topics in Transportation Planning and Policy, University of Washington, Seattle, WA, January 31, 2020
4. **Hurvitz PM.** "UW Data Collaborative: A New Hub for Innovative Data", CSDE 502: Population Studies Proseminar, University of Washington, Seattle, WA, October 15, 2019
5. **Hurvitz PM.** "Reproducible GIS with R", CSDE 502: Population Studies Proseminar, University of Washington, Seattle, WA, October 15, 2019
6. **Hurvitz PM.** "Technique: Where the Rubber Meets the Road in Scientific Research", UrbDP 598: Urban Science, University of Washington, Seattle, WA, October 3, 2019
7. **Hurvitz PM.** "Spatial/racial bias in urban form: Examining evidence", UrbDP 514: Race and Social Justice, University of Washington, Seattle, WA, May 23, 2019
8. **Hurvitz PM.** "Walking: a planning, transportation, and health perspective", UrbDP 532: Current Topics in Transportation Planning and Policy, University of Washington, Seattle, WA, January 31, 2019
9. **Hurvitz PM.** "Technique: Where the Rubber Meets the Road in Scientific Research", UrbDP 598: Urban Science, University of Washington, Seattle, WA, November 15, 2018
10. **Hurvitz PM.** "Document Formatting and Automation for Reporting Research", UrbDP 512A: Research Seminar, University of Washington, Seattle, WA, November 13, 2018
11. **Hurvitz PM.** "Urban Planning, Health, GIS and ...", PCE GIS Certificate Program, University of Washington, Seattle, WA, May 2, 2018
12. **Hurvitz PM.** "Walking: a planning, transportation, and health perspective" UrbDP 598B: Current Topics in Transportation Planning and Policy, University of Washington, Seattle, WA, January 4, 2018
13. **Hurvitz PM.** "Urban Form Lab Activities" UrbDP 500: Survey of Planning, University of Washington, Seattle, WA, November 20, 2017
14. **Hurvitz PM.** "Document Formatting and Automation for Reporting Research", UrbDP 512A: Research Seminar, University of Washington, Seattle, WA, November 11, 2017
15. **Hurvitz PM.** "R: A Research Perspective" UrbDP 520A: Quantitative Methods in Urban Design and Planning, University of Washington, Seattle, WA, November 9, 2017
16. **Hurvitz PM.** "Urban Form Lab Research" Institute for built environment innovations, University of Washington, Seattle, WA, October 16, 2017
17. **Hurvitz PM.** "Walking in the (Future) City" BE 405/505: Restructuring for the Future City, University of Washington, Seattle, WA, February 29, 2017
18. **Hurvitz PM.** "From Data to Movement, Behavior, and Health: GIS in Urban Data Science" ARCH 598: Future of the City, University of Washington, Seattle, WA, February 17, 2017
19. **Hurvitz PM.** "Walking: a planning, transportation, and health perspective" UrbDP 598A: Current Topics in Transportation Planning and Policy, University of Washington, Seattle, WA, February 1, 2017
20. **Hurvitz PM.** "Assessing Built Environment and Activity: Real Time Measurement and Analysis at High Spatial and Temporal Resolution" CEE 416: Urban Transportation Planning, University of Washington, Seattle, WA, November 7, 2016

21. **Hurvitz PM.** "Assessing Built Environment and Activity: Real Time Measurement and Analysis at High Spatial and Temporal Resolution" UrbDP 591: Research Design in Urban Science, University of Washington, Seattle, WA, October 10, 2016
22. **Hurvitz PM.** "Dealing with Large Data Sets" UrbDP 591: Research Design in Urban Science, University of Washington, Seattle, WA, October 10, 2016
23. **Hurvitz PM.** "Physical Activity, Nutrition, Built Environment, and Health" EnvH/UrbDP 538: Public Health and Built Environment/Healthy Community Design, University of Washington, Seattle, WA, January 14, 2016
24. **Hurvitz PM.** "Analysis of Travel Diary Data" UrbDP 576 Pedestrian Travel, Land Use, and Urban Form, University of Washington, Seattle, WA, April 18, 2015
25. **Hurvitz PM.** "Walking: a Planning, Transportation, and Health Perspective" UrbDP 598A: Current Topics in Transportation Planning and Policy, University of Washington, Seattle, WA, February 2, 2015
26. **Hurvitz PM.** "Assessing Built Environment and Activity: Real Time Measurement and Analysis at High Spatial and Temporal Resolution" UrbDP 591A Advanced Research Design: Theoretical and Practical Challenges, University of Washington, Seattle, WA, October 9, 2014
27. **Hurvitz PM.** "Measuring Walking" UrbDP 576: Pedestrian Travel, Land Use, and Urban Form, University of Washington, Seattle, WA, April 14, 2014
28. **Hurvitz PM and J. Y. Scully.** "Food-related Behavior: A Spatial Perspective" NUTR 500 Graduate Seminar: Current Issues in Nutrition, University of Washington, Seattle, WA, December 5, 2013
29. **Hurvitz PM.** "Dealing with Large Data Sets" UrbDP 591A Advanced Research Design: Theoretical and Practical Challenges, University of Washington, Seattle, WA, October 17, 2013
30. **Hurvitz PM.** "Analysis of Travel Diary Data" UrbDP 576 Pedestrian Travel, Land Use, and Urban Form, University of Washington, Seattle, WA, April 29, 2013
31. **Hurvitz PM.** "Travel Diary Data Entry" UrbDP 576 Pedestrian Travel, Land Use, and Urban Form, University of Washington, Seattle, WA, April 1, 2013
32. **Hurvitz PM.** "Quantifying the food environment: Concepts and methods," NUTR 500: Graduate Seminar, Current Issues in Nutrition, University of Washington, Seattle, WA, February 4, 2010
33. **Hurvitz PM.** "Food Access: a Spatial and Temporal Perspective," NUTR 500 Graduate Seminar: Current Issues in Nutrition, University of Washington, Seattle, WA, January 17, 2013
34. **Hurvitz PM.** "Measures of Access to Quick Service Restaurants," NUTR 500: Graduate Seminar, Current Issues in Nutrition, University of Washington, Seattle, WA, November 2, 2009
35. **Hurvitz PM.** "Measuring individual space-time movements in the urban environment," ESRM 250: Introduction to Geographic Information Systems in Forest Resources, University of Washington, Seattle, WA, October 1, 2009
36. **Hurvitz PM.** "New Measures of the Food Environment in Seattle-King County," NUTR 500: Graduate Seminar, Current Issues in Nutrition, University of Washington, Seattle, WA, February 19, 2009
37. **Hurvitz PM.** "Validating Objective Measures of Physical Activity with a Novel Device," UrbDP 598: Built Environment & Health, University of Washington, Seattle, WA, January 22, 2008
38. **Hurvitz PM.** "Objective Measures of Physical Activity and Built Environment," ESRM 250: Introduction to Geographic Information Systems in Forest Resources, University of Washington, Seattle, WA, November 13, 2007
39. **Hurvitz PM.** "Objective Measures of Physical Activity and Built Environment," UrbDP PhD Colloquium, University of Washington, Seattle, WA, October 23, 2007
40. **Hurvitz PM.** "GIS and Urban Form," UrbDP 422: The Urban Form, University of Washington, Seattle, WA, October 22, 2007
41. **Hurvitz PM.** "Measuring Physical Activity and Location in Real Time," MEBI 591B: Public Health Informatics Seminar, University of Washington, Seattle, WA, May 4, 2007
42. **Hurvitz PM.** "Research in the Urban Form Lab College of Architecture and Urban Planning University of Washington," Green River Community College, Auburn, WA, December 6, 2006
43. **Hurvitz PM.** "Validation of New Technologies and Methodologies for Measuring Physical Activity and Location in Real Time-Space", UrbDP PhD Colloquium, University of Washington, Seattle, WA, October 10, 2006

Student Advising

Kim, Boeun, PhD	2024
Committee member for PhD student (Nursing). Research topics: Neighborhood environmental effects in Alzheimer's/dementia	
Min, Yohan, PhD	2022
Committee member for PhD student (Built Environments). Research topics: Neighborhood environmental effects in use of sustainable electricity technologies	
Robinson, Jamaica, PhD	2020

Committee member for PhD student (Epidemiology). Research topics: Neighborhood environmental effects in colon cancer survival	
Di Simone, Anthony, MUP	2019
Committee member for MUP student. Research topics: Longitudinal treatment/control study of bike share on transit ridership	
Frazier, Jonathan, MUP	2019
Committee member for MUP student.	
Maring "Kennedy" Muni, PhD	2019
Committee member for PhD student (Epidemiology). Research topics: Evaluation of SafeBoda program in Kampala, Uganda.	
Eric Howard, PhC	current
Committee member for PhD student (Urban Design and Planning). Research topics: Quantitative analysis of built environment, transportation, physical activity, walking, air pollution exposure.	
Wei Ding, MUP	2016
Committee member for Master of Urban Planning student. Thesis title: "How built environment and weather impact bike share-evidence from the bike share system Pronto in Seattle."	
Jason Scully, PhD	2016
Committee member for PhD student (Urban Design and Planning). Thesis title: "Human Mobility, Exposure to the Built Environment, and Health."	
Daniel Hwang, MPH	2014
Committee member for Master of Public Health student. Thesis title: "Physical activity and home neighborhood characteristics."	
Stephen Padua, MUP	2013
Committee member for Master of Urban Planning student. Thesis title: "Traffic Calming on Arterial Streets: The Seattle Experience."	
Brian Kertson, PhD	2005
Committee member for MS student Wildlife Ecology, University of Washington. Thesis title: "Puma concolor ecology and behavior."	
Brian R. Zweibel, MS	2003
Committee member for MS student in Forest Resource Management, University of Washington. Thesis title: "Human Distribution in the Alagnak Wild River Corridor: Spatial and Temporal Patterns in Southwest Alaska."	
Elizabeth Dolan, MS	2002
Committee member for MS student in Forest Soils, University of Washington. Thesis title: "Soil and site variability in the Northeast Wenatchee Mountains."	

Academic Service

University of Washington

- Search committee for Research Assistant Professor in Real Estate (Member) 2016
Department of Urban Design and Planning, University of Washington
- Alumni Board, University of Washington College of Forest Resources 2003-present
- Advisory Board Member, University of Washington Extension (GIS Certificate Program) 1999-present
- Esri Site License Coordinator 1997-2023
 - Primary coordinator of software distribution, licensing, and technical support for University of Washington site license for Esri (GIS) software
 - Administer software licenses for > 5,000 users
 - Oversee administration of Esri Virtual Campus subscription
 - Administer ArcGIS Online, > 800 users
- Creator/administrator of UW-GIS-L 1997-2023
E-mail listserv providing GIS information and support to > 600 users within and beyond UW
- UW GIS Day Planning Committee 2001-2023
- University of Washington Interdisciplinary PhD Program in Urban Design and Planning Steering Committee 2008-2009
Student member of steering committee
- University of Washington External Review Committee, Oregon State University Forestry (Member) 2002
Part of a 3-person team invited to review OSU's Forestry computing resources

Journal Referee

- American Journal of Preventive Medicine
- Exercise and Sport Sciences Reviews
- Environment and Behavior

- Health and Place
- International Journal of Health Geographics
- Medicine and Science in Sports and Exercise
- Preventing Chronic Disease (CDC)
- Preventive Medicine
- Transportation Research Board
